### The ASHVINS GROUP Inc. and Johnson Service Group Inc. Awarded Florida IT Services Contracts

Atlanta, GA (March 31, 2010) ... The ASHVINS GROUP INC. ("ASHVINS"), a Certified Woman Owned SBE providing IT services to both commercial firms and government agencies and Johnson Service Group, Inc. , ("JSG") a leading nationwide provider of technical and professional personnel with principal offices in Atlanta, GA and Burr Ridge, IL announce the award of two Florida based government agency IT contracts. ASHVINS and JSG established a Teaming Agreement in November 2009 leading to their joint participation in Florida contract bids. The awarding of these two contracts is the result of the combined efforts of the two firms.

Lynn Hilt President, CEO of ASHVINS commented: "We look forward to supporting Florida based government agencies using the full range of our combined IT capabilities. Our team is excited to work with JSG and believe they are an outstanding staff augmentation partner to compliment our own IT consulting and project management core competencies. ASHVINS and JSG working together offer agencies the best of both our firms."

Lou Bertone, JSG President said: "Our firm has always desired to add IT consulting and project management resources to our services mix. Because of our ASHVINS Teaming Agreement, JSG will now be able to enhance our client service offerings". Dale Slater, JSG Executive Vice President added: "JSG has been looking for qualified minority owned partners to augment our services. We are pleased to team with ASHVINS."

#### About The ASHVINS GROUP INC.

The ASHVINS GROUP, founded in 2000, is an IT services firm serving both commercial and governmental marketplaces by providing the following technology services: project management, requirements analysis, specification development, process/systems evaluation, systems design, implementation and integration, application development and verification/validation. Typical projects range from technology consultation to Full Life Cycle Application Development. ASHVINS Technology Professionals' support also includes data collection interfaces, data analysis, database development, process automation and computer related systems validation. In addition the company is skilled in software development, validation and compliance processes for FDA regulated environments (and HIPPA compliant applications).
