

The **ASHVINS Group** has been selected for the South Florida Business Journal listing of "2014 Fast Tech Awards", ranking #2 based on percent growth of annual revenues.

## **PRESS RELEASE**

South Florida Business Journal: "2014 Fastest-Growing Technology Companies" Listing

**The ASHVINS Group, Inc.**

Technology Professionals

<http://www.ashvinsgroup.com>

MIAMI FL, USA – October 27th, 2014. The South Florida Business Journal (SFBJ) annually honors the achievement of local technology firms. The ASHVINS Group has been selected for the 2014 South Florida Award in the "Fastest-Growing Technology Companies", ranking #2 on a list of the top firms.

The SFBJ "Fastest-Growing Technology Companies" Award Program recognizes outstanding local businesses who have achieved the fastest growth compared to prior year. Companies are ranked by percentage growth of annual revenues from 2012 to 2013. These awards are presented to companies based in South Florida that create advanced technologies, provide IT solutions and services to businesses, and achieve positive results for clients. Nearly 200 people gathered at the Hyatt Pier 66 in Fort Lauderdale, FL to honor the top 25 companies.

"We attribute our growth to our ability to form strategic partnerships. Forming the right strategic partnership increased our efforts in three essential areas – credibility, sales coverage and flexible workforce utilization", said President/CEO, Lynn Hilt. "Allocating first-class resources and quality based project management processes allowed us to successfully deliver objectives. We were also able to leverage our status as a WOB and SBE to capitalize on client's corporate diversity goals".

## **ABOUT ASHVINS GROUP**

The **ASHVINS Group** serves both federal and commercial marketplaces by providing a variety of technology services including: staff augmentation, project management, requirements analysis, specification development, process/systems evaluation, systems design, implementation and integration, application development and verification/validation. Our projects range from technology consultation to Full Life Cycle Application Development. ASHVINS Technology Professionals' support also includes data collection interfaces, data analysis, database development, process automation and computer related systems validation. In addition, the company is skilled in software development, validation and compliance processes for FDA regulated environments (and HIPAA compliant applications).

Areas of ASHVINS' technical expertise include web based systems, Windows and Mac operating environments, mobile platforms and wireless technologies. The ASHVINS Group is a Certified Woman Owned Small Business and State of FL SBE. Visit our web site at [www.ashvinsgroup.com](http://www.ashvinsgroup.com) for a summary of typical projects.
