MIAMI FL. USA – April 27, 2011. The **ASHVINS Group** announces they have formed a strategic alliance with Johnson Service Group (JSG) to jointly offer project based solutions and staff augmentation services. Since 1983, Johnson Service Group has become known as a leader in the staffing industry throughout the United States and has maintained leadership by offering the most effective cross-industry staffing services available. Lynn Hilt, President/CEO of ASHVINS Group, commented "This partnership between ASHVINS and JSG is crafted to meet the unique needs of each client by offering a range of staff enhancement services from tactical engagements to full project lifecycle solutions or placement of quality talent into key positions by utilizing an extensive database of industry professionals. We look forward to building our alliance and working closely with JSG." The combination of Johnson Service Group's industry leading specialized staffing services with The ASHVINS Group's project focused development, implementation and management expertise provides a highly skilled resource pool to direct and accomplish complex assignments. Clients working with JSG and ASHVINS have the option of either contracting full project based solutions or staffing services to augment internal teams. JSG and ASHVINS Group offer staff augmentation services and project based solutions to commercial firms and government agencies (GSA Schedule GS-35F-0561T).

ABOUT ASHVINS GROUP

The **ASHVINS Group** serves both federal and commercial marketplaces by providing a variety of technology services including: staff augmentation, project management, requirements analysis, specification development, process/systems evaluation, systems design, implementation and integration, application development and verification/validation. Our projects range from technology consultation to Full Life Cycle Application Development. ASHVINS Technology Professionals' support also includes data collection interfaces, data analysis, database development, process automation and computer related systems validation. In addition, the company is skilled in software development, validation and compliance processes for FDA regulated environments (and HIPAA compliant applications).

Areas of ASHVINS' technical expertise include web based systems, Windows operating environments, mobile platforms and wireless technologies. The ASHVINS Group is a Certified Woman Owned Small Business with a GSA Schedule 70 to support government contracts. Visit our web site at www.ashvinsgroup.com for a summary of typical projects.
