

The ASHVINS Group presents at a luncheon associated with the annual exhibit of the American Telemedicine Association, April 2009.

PRESS RELEASE

Remote Monitoring and Disease Management Technologies

The ASHVINS Group, Inc.

Technology Professionals

<http://www.ashvinsgroup.com>

MIAMI FL. USA – April 10th, 2009. Jim Berlin, Business Development Director of **The ASHVINS Group, Inc.**, an Information Technology consulting firm focused in medical device and clinical industries, announced Lynn Hilt, President/CEO will present at a luncheon associated with the American Telemedicine Association annual exhibit on April 26th in Las Vegas, NV.

The ASHVINS Group will showcase experience developing innovative information and data management platforms to facilitate remote monitoring of diabetes patients. They will present their experience developing and implementing web enabled applications that support personalized monitoring services for disease management and e-visits to Healthcare Providers to manage diabetes. The development experience includes wireless connections, Bluetooth and IR medical device interfaces and HL7 standards.

ABOUT ASHVINS GROUP

The ASHVINS Group, based in Miami, FL, is an IT systems development firm specialized in software development for medical and clinical based industries. They work with clinical organizations to augment development teams for custom application and healthcare platform development. **ASHVINS'** Technology Professionals support full life-cycle development including data collection, data analysis, database development, laboratory automation, and systems interfaces to medical devices and LIS/HIS.
