

The **ASHVINS Group** completes project with the FDA to identify and analyze hazards associated with Insulin Pumps.

PRESS RELEASE

ASHVINS Group collaborates with the FDA on Insulin Pump Safety Project.

The ASHVINS Group, Inc.

Technology Professionals

<http://www.ashvinsgroup.com>

MIAMI FL, USA – March 8, 2010. The **ASHVINS Group** participated in an expert panel organized by the Office of Science and Engineering Laboratories, Center for Device and Radiological Health, U.S. Food and Drug Administration. The purpose of the panel was to review insulin pump safety issues in the context of pump operation; software; hardware; physical structure; electrical, biological, and chemical considerations; use; and environment from engineering and pump/user perspectives. The outcome of the project is summarized in two articles published in the Journal of Diabetes Science and Technology, Volume 4, Issue 2, March 2010; "*Second Insulin Pump Safety Meeting: Summary Report*" and "*A Hazard Analysis for a Generic Insulin Infusion Pump*". The **ASHVINS Group** was selected by the FDA as an industry expert in the area of insulin pump technology to contribute in this panel of physicians, nurses, diabetes educators, and engineers from across the United States.

ABOUT ASHVINS GROUP

The **ASHVINS Group** has been in business since 2000 and serves both federal and commercial marketplaces by providing a variety of technology services including: project management, requirements analysis, specification development, process/systems evaluation, systems design, implementation and integration, application development and verification/validation. Our projects range from technology consultation to Full Life Cycle Application Development. **ASHVINS** Technology Professionals' support also includes data collection interfaces, data analysis, database development, process automation and computer related systems validation. In addition, the company is skilled in software development, validation and compliance processes for FDA regulated environments (and HIPAA compliant applications).

The **ASHVINS Group** offers clients a synergistic approach to Project Management that combines experience in healthcare industries with IT development expertise. Areas of technical expertise include web based systems, Windows operating environments, mobile platforms and wireless technologies. The **ASHVINS Group** is a Certified Woman Owned Small Business with a GSA Schedule 70 to support government contracts. Visit our web site at www.ashvinsgroup.com for a summary of typical projects.
